Yes, the Alpha FOBs are in the trailers.

Thanks,
Robby

Robby:

Are the FOBs staying in the trailers?

Either way, they need to report to the ICP. We have a packet for them. They will use the 214 to record their work per day but the form that you provided to document their observations. They will need to provide both documents to Incident Command – Ops/Alpha Branch Director.

We can make the number of copies that they need.

Thanks
Gary Moore

Rich,

See below. Can you find out if the FOBs are getting 214s when they check in? We have been told that they are reporting straight from the hotel to the TCEQ Houston office. This means that they would need to have a least enough 214s to last 3 days and cover 80+ sights.

Also, can you confirm that same for Alpha.

Thanks,
Robby

The 214 should capture all of that information, if they just document each Facility name and location they visit.

Robby - that's Great. We need to make sure each team is notified of the expectations and that we are not reporting compliance information just where they visited.

Bryant,

TCEQ is in agreement with EPA developing a daily summary report of debris observation activities and reporting that up through IC in a manner that is consistent with other field activities.

Thanks,
Robby

Gary – we will forward this information to the new FOBs, but if we don't get in touch with them today, I believe they will be down Sunday afternoon. You may need to check to see if they have received it.

Susan or Robbie – can you forward to the Debris observers?

Thank you,

Bryant

Hello Gary,

Staff can meet at the TCEQ Region 14 office located on the Texas A&M Corpus Christi campus - 6300 Ocean Drive, Natural Resources Building (NRC) Suite 1200, Corpus Christi, Texas 78412. I'll be your point of contact. A visitors parking pass can be obtained from the kiosk on the way in. Teams plan to leave for field work around 8:00 am. I usually arrive around 7:30 and can be contacted at 361-537-7915.

Thank you,
Michelle Phillips
